PROFESSIONAL SUMMARY

Software Development Engineer (SDE) aspirant and Information Technology undergraduate with expertise in full-stack MERN application development, real-time messaging architecture, and AI integrations. Strong computer science foundation with 200+ solved algorithmic problems across LeetCode.

EDUCATION

Ajay Kumar Garg Engineering College, Ghaziabad, India **Expected May 2027**
Bachelor of Technology in Information Technology CGPA: 7.6/10.0
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, Python
Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Socket.io, Zustand, TensorFlow.js, face-api.js
Databases & Cloud: MongoDB Atlas, MySQL, Cloudinary
Developer Tools: Git, GitHub, VS Code, Postman, REST APIs

PROJECTS

Real-Time Chat Application [Live Demo] [GitHub]
Technologies: MongoDB, Express.js, React.js, Node.js, Socket.io, JWT, Zustand, Cloudinary

- Developed a scalable full-stack real-time messaging application using the MERN stack, supporting 100+ concurrent users with low-latency bidirectional socket connections via Socket.io.
- Implemented secure JWT-based authentication and authorization with bcrypt password hashing and HTTP-only cookies, reducing security vulnerabilities and unauthorized access.
- Engineered 10+ RESTful APIs for real-time messaging, user management, and media delivery, integrating Cloudinary for media storage and Zustand for efficient state management.

AI-Powered Mock Interview Platform [Live Demo] [GitHub]
Technologies: MongoDB, Express.js, React.js, Node.js, OpenAI API, TensorFlow.js, face-api.js, JWT

- Built and deployed an end-to-end AI mock interview platform leveraging OpenAI GPT API and NLP algorithms to deliver dynamic interview questions and automated response feedback.
- Integrated real-time facial expression and emotion recognition using TensorFlow.js and face-api.js, evaluating 5+ key emotional metrics to measure candidate confidence and focus.
- Designed 10+ robust RESTful APIs for resume parsing, question generation, and candidate analytics, enhancing overall platform scalability and data processing efficiency.

EXPERIENCE

IBM Artificial Intelligence Virtual Internship **Mar 2026 – May 2026 | Remote**
Artificial Intelligence Intern

- Completed an 8-week hands-on training in Artificial Intelligence, Machine Learning, Deep Learning, NLP, and Computer Vision through IBM SkillsBuild.
- Evaluated and worked on multiple predictive analytics and classification models using data preprocessing, feature engineering, and model optimization techniques. z
- Applied machine learning workflows including data cleaning, model evaluation, and performance analysis across 5+ AI project case studies.

CERTIFICATIONS & ACHIEVEMENTS

- **IBM Artificial Intelligence Virtual Internship:** [View Certificate]
- **Full Stack Web Development Certification:** CodeSquadz Education Pvt.Ltd. [View Certificate]
- **Data Structures & Algorithms Certification:** Comprehensive DSA Training [View Certificate]
- **Frontend Development Certification:** Sheryians Coding School [View Certificate]
- **Python Programming Certification:** Infosys Springboard [View Certificate]
